

School Committee Finance Subcommittee

Wednesday, March 14, 2018

8:30 AM – 10:00 AM

5th Floor Conference Room, Town Hall

Finance Subcommittee members present: Beth Jackson Stram (Chairman), Suzanne Federspiel, and Julie Schreiner-Oldham.

Finance Subcommittee members absent: Ben Chang.

Other School Committee members present: Helen Charlupski, Susan Wolf Ditkoff (by phone), and David Pollak.

Staff present: Andrew Bott, Mary Ellen Dunn, and Robin Coyne.

Others present: Advisory Committee School Subcommittee member David Lescohier, Solid Waste Advisory Committee members John Dempsey and Clint Richmond, and Sara Stoutland.

1) Approve February 7, 2018 Finance Subcommittee Meeting Minutes

On a motion of Ms. Stram and seconded by Ms. Federspiel, the Finance Subcommittee voted (Ms. Schreiner-Oldham abstained because she was not at the February 7, 2018 meeting) to approve the minutes of the February 7, 2018 Finance Subcommittee meeting.

2) School Lunch Fee Increase due to Health Insurance Charges by the Town, Warrant Article Sustainable Food and Packaging, and Food Expenses

Ms. Dunn reported that Director of School Operations and Facilities Matt Gillis and Food Service Director Gus Travassos are preparing a recommendation to increase school lunch prices. The recommended prices will reflect increases due to employee health insurance charges by the town, a move towards more sustainable food and packaging, and increases in shipping, labor, and food costs. Ms. Dunn noted that charges to all of our federal grants must be made in same manner, i.e., we cannot charge benefits to one federal grant and not the others. Lunch price increases are typically between ten and twenty-five cents. The cost to introduce sustainable packaging and utensils is estimated to be under five cents per lunch. Mr. Dempsey and Mr. Richmond spoke in favor of the Town Meeting Warrant Article related to Sustainable Food and Packaging, noting the importance of composting in the school cafeterias. We currently divert out of the waste stream over two tons per month. The containers we use for salads and the utensils cannot be composted or recycled. Students are very eager to promote sustainable practices. Ms. Dunn reported that Mr. Gillis will be reporting on changes in state law that require composting in schools cafeterias.

On March 22, 2018, the School Committee will be discussing whether to offer an opinion on any Town Meeting Articles (would require the School Committee to hold a public hearing.) Mr. Gillis will present a financial analysis and recommendation for school lunch price increases at the April 23, 2018 School Finance Subcommittee meeting. The presentation will include information on elementary, middle school, and high school lunch prices in comparable districts.

3) Rental Rate Increase Recommendation (Impacts Public Building Division)

Ms. Dunn stated that the Public Schools of Brookline charge groups significantly less to rent space than comparable districts. She will be presenting a recommendation to increase rents at the March 19, 2018 School Finance Subcommittee meeting. The proposed recommendation will most likely impact the three groups identified under the School Committee's Policy on the Use of School Buildings by District Partners, Town Partners, and Independent Partners, but will not require changing the Policy. The proposed increase would be graduated. There could be an initial drop-off in participation. The additional revenue, projected at \$140,000 per year, could be used for building maintenance and capital expenditures. This is in addition to the new revenue request of \$625,000 (over three years; initial request was for \$945,000). Ms. Dunn will be meeting with representatives of the groups. She is recommending that the proposed rate increases become effective September 2018.

4) Update and Discussion on the FY 2019 Budget and the Select Board's Override Vote

Mr. Bott referred to the updated chart showing variations of the proposed FY 2019-FY 2023 Preliminary Budget Projections (Attachment A). The Select Board has recommended changes (second column) to the School Committee's request for additional revenue. At tonight's Select Board meeting, Ms. Stram will discuss the potential impact of these reductions. Her remarks will focus on three items: 1) over max paraprofessionals (the School Committee was counting on using supply funds, if necessary, to fund up to five classroom paraprofessional positions in classrooms that exceed the School Committee's class size guidelines); 2) paraprofessional wage proposal; and 3) school bus service between South Brookline and Brookline High School. Mr. Bott explained changes he is recommending at this time (third column).

The meeting adjourned at 10:00 AM.
